

# Camp Mommy!

Newsletter Week 2

## BOBAM'S!!

The Ansbacher's had an idea for **BOBAM'S!** We bought it at the store. So we had to put the ballies inside a mug into the microwave for 50 seconds and then after that you put it in a cup which had ice and then you add milk. The less milk you add the more sweeter it would be. I would rate it five. 😊

---

## What an exciting week!

We went to Baruch Bamburgers wedding. It was nice. Binyamin and Yaakov got the second row of seats at The Chupa .We danced with the choson.We went swimming on Tuesday night it was really fun!

## [NEW STORY] Lost In The Woods

Many years ago there was once a little kid called Eli. Who was going with his family hiking in a forest far away in Brooklyn. His little sister Dina was very very scared. Thinking there might be Bears trying to get her. Eli wasn't scared at all if anything he thought it was cool. until her sister slipped on a rock and right behind her was a BEAR!

## *To be continued...*

---

---

## Night Swimming

Tuesday night Yehuda and Binyamin H. and Yaakov Ansbacher went splish splashing at 10:30pm in the pool. Binyamin Set the lights up, chair's made the place look clean! They did dives and Cannonballs and a whole bunch of crazy moves which made a massive splash!

---

## Pizza, slushies and fries at once?!

Oh yes we got pizza slushies and fries[From Seasons Express] on Tuesday night[THANK YOU MOMMY]! It was amazing! 🥰

---

## Let's Figure Out How Much *Teruma* And *Ma'aser* You Give Away

Let's see you harvest a 100 pounds of grapes in your vineyard. How much must you take off? First, *teruma* is Separated for the *kohen*. *Teruma* could be 1/40, 1/50 or 1/60. Let's say you want to give 1/50, Which Equals 2 pounds.

$$100 \text{ pounds} - 2 \text{ pounds } \textit{teruma} = 98 \text{ pounds}$$

---

You are left with 98 pounds from these 98 pounds you have to give 1/10 as *ma'aser* to a *laivi* 1/10 of 98 pounds = 9.8 pounds

***98 pounds - 9.8 pounds ma'aser = 88.2 pounds***

You are left with over 88 pounds from this amount you have to take off one / 10 for *ma'aser shaini* [And in some years for *ma'aser anni*] 1/10 of 88.2 pounds.

***88.2 pounds - 8.82 pounds ma'aser shaini or ma'aser anni = 79.38***

After you are finished separating the *terumah* and the *ma'asros*, you have left a little more than 79 pounds of your original 100 pounds of grapes.

*Do you feel bad about giving away so much? You shouldn't. Read the next paragraph to understand why.*

*The Midrash Tells Us:*

**A Jew becomes rich by giving away  
*ma'aser***

Hashem promised the *Bnai Yisroel* "If you give *ma'aser* As I commanded I will give you plentiful rain and I will

---

bless your produce. You will harvest so much that you  
will become rich"

---

## What About *Teruma* And *Ma'aser* Today?

Today a farmer in *Eretz Yisrael* must take off both  
*teruma* and *ma'aser*.
